You are invited to witness the ***greatest migration on earth!*** Please join Teri Priebe on **October 21 – November 3, 2019** for the *adventure of a lifetime*, an All-Inclusive Great Migration Safari in **Tanzania, Africa!** On this exciting journey you will experience the extraordinary trek across the Serengeti plains in which nearly two million wildebeest, zebras, and other grazing herbivores take part each year in their quest to live on as they follow their annual migration path.

Hand-picked veteran guides will lead our small group safari as we see and learn about the vast numbers of animals and birds in the wildlife-rich and culturally diverse northern circuit of Tanzania while visiting Ngorongoro Crater, the national parks of Tarangire, Manyara and the Serengeti, and Oldupai Gorge (the most famous archaeological location in East Africa). We will also explore some of the most fascinating cultures in Africa: the semi-nomadic Maasai with their distinctive customs and dress, the extraordinary nomadic Hadzabe Bushmen who are the last full-time hunter-gatherers in Africa, and others of the 120 different tribes in Tanzania.

Winding our way north, we will travel to the northern Serengeti, where the vast herds go during this time following the rains and better grasses. We will stay in a luxury tented mobile camp near the migrating wildlife, where we can enjoy the close proximity of the migration. Our location will give us a chance to possibly witness a river crossing of the herds, while giant crocodiles await to feast! This is an ***extraordinary*** experience, one which will leave you with a lifetime of ***amazing*** memories!

All-Inclusive Trip with Teri as your escort includes:
